

## Price Changes on Selected Products with Gold Content

Nov 1<sup>st</sup>, 2024

Subject: Price Changes Effective Jan 1<sup>st</sup>, 2025

Dear Valued-Customers,

As you are aware, the global market continues to experience volatility in raw material costs, particularly with precious metals such as gold. Gold is a key component in many of TE Intercontec products, and its significant price increase is impacting our production costs. While we remain committed to optimizing operations and minimizing the impact on our customers, we are unable to absorb the full extent of these rising costs.

As a result, TE finds it necessary to adjust prices on select products that include gold such as plated contacts. Effective Jan 1<sup>st</sup>, 2025, a price increase will be implemented for these specific products. Your local TE Salesperson will provide you with a detailed price file outlining the adjustments. This communication serves as our official notice of the upcoming changes.

We greatly value your partnership and understanding as we navigate these cost pressures while continuing to deliver high-quality products to meet your needs. Should you have any questions regarding this communication, please contact your local Sales Representative or Customer Care team for further assistance. Thank you for your continued support.

Sincerely,
